

ServiceBase

```
classDiagram
    class ServiceBase
    class NetworkControlModule {
        NCMService
    }
    NetworkControlModule.NCMService --|> ServiceBase
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'ServiceBase'. Below it is a box labeled 'NetworkControlModule.NCMService'. A blue arrow points from the 'NetworkControlModule.NCMService' box up to the 'ServiceBase' box, indicating that 'NetworkControlModule.NCMService' inherits from 'ServiceBase'.

NetworkControlModule.NCMService
